Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 30-35** are rejected under 35 U.S.C. 102(e) as being anticipated by Aggarwal et al. (US 6,260,148 B1).

Regarding **claim 30**, Aggarwal discloses a method for maintaining an IM client status [column 1, lines 19-22], the method comprising:

detecting a change in proximity of a user of an IM client [Property notification subscriptions allow for messages to be generated and forwarded by a remote device when certain triggering conditions are met, column 13, lines 20-32]; and

updating an IM client status in accordance with the change in proximity [Notification of changes in the online status of clients can be communicated from one network to another in substantially the same manner as the other instant messages disclosed herein, column 13, lines 34-49];

wherein the IM client status is selected from the group comprising on-line and off-line [Each entry 142 is associated with an online status property 144, the

value of which indicates whether the correspondent is online. For instance, in FIG. 8, client entries 142 of contact list 140A designating clients C and F have an online status property value 144 indicating that the clients are online (as indicated by the "x"), column 13, line 65 to column 14, line 14].

Regarding **claim 31**, Aggarwal teaches a method, wherein detecting the change in proximity includes detecting that the user has come within a range of a proximity detector [column 14, lines 3-14].

Regarding **claim 32**, Aggarwal teaches a method, wherein detecting the change in proximity includes detecting that the user has exited a range of a proximity detector [column 14, lines 15-30].

Regarding **claim 33**, Aggarwal teaches a method, wherein detecting the change in proximity includes determining a lack of activity on an input device [column 14, lines 31-59].

Regarding **claim 34**, Aggarwal teaches a method, wherein determining a lack of activity includes determining a lack of activity for a predetermined timeout period [column 14, lines 31-59].

Regarding **claim 35**, Aggarwal teaches a method, wherein detecting the change in proximity includes determining the resumption of activity on an input device [column 14, lines 60-67].

Allowable Subject Matter

3. **Claims 1-3, 5-12 and 14-28** are allowed.
